### Non-Gynaecological Cytology Courses for Trainee Pathologists (StRs) 2012

**13-15 February 2012; 5-7 September 2012**

**Non-Gynaecological Cytology Courses for Trainee Pathologists (StRs)**

**Course Organiser: Dr Raji Ganesan**

**Venue: Birmingham Cytology Training Centre**

**Birmingham Women's Hospital, Birmingham B15 2TG**

This is a comprehensive 3-day cytology course that includes the salient aspects of diagnostic non-gynaecological cytopathology. All the tutors on this course have considerable expertise and use a variety of techniques – lectures, workshops and multiheader sessions. The teaching material used will be available for revision throughout the course. There will be a mock exam that seeks to emulate the FRCPath Part 2 exam with an opportunity to discuss the “exam” cases with the tutor.

The course is also suitable for Advanced Practitioners and Senior Biomedical Scientists to update knowledge in specific areas of non-gynaecological cytology. Single sessions are available.

Course Fee: £300 including lunch

For further information and to book a place please contact Amanda Lugg:
