

## **FRCPath Part 2 Revision Courses at the Royal Free Hospital, London**

The department of cellular pathology at the Royal Free Hospital, London hosts a three day revision course twice a year for senior trainees who are to about to take the FRCPath Part II Examination.

This FRCPath revision course is an excellent opportunity for candidates to exercise their skills in an exam environment and sharpen their approach to reporting cases under pressure.

The first two days will replicate the format of the short surgical case exam (20 cases with 10 minutes per case). Day 2 will include a macro session whilst the last day will be split between reporting frozen sections, long cases and cytology. Each afternoon will be a review of that morning's cases, and a discussion of appropriate answers.

Microscopes will be provided.

A maximum of 40 candidates will be accepted.

The course will cost £300 per person.

### **FRCPath revision course dates 2009**

- Monday 28 – Wednesday 30 September 2009

### **FRCPath revision course dates 2010**

- Saturday 6 – Monday 8 March 2010
- Monday 20 – Wednesday 22 September 2010
